

MARINA MATE SS

Power Pedestal Model MMSS2050

STANDARD DIMENSIONS: 30"H 8"W 8"D

The "Marina Mate SS" is a stylish and economical alternative to the full-sized "Harbor Light SS" power pedestal. This unit is the ideal choice for the smaller marina or personal docks with smaller power demands. It can be outfitted with receptacles and circuit breakers to serve as a full-fledged power pedestal, or simply act as an attractive luminaire to complement the marina or landscape ambience.

STANDARD FEATURES

- Intertek-ETL Listed, tested in accordance with Underwriters Laboratories-231 standards, CAN/CSA Standard C22.2 No.29 and NFPA 303
- Rugged, long-lasting stainless steel NEMA 3RX main housing
- Limited 1-Year Warranty
- Highest quality twist-lock receptacles and circuit breakers
- Patented pivoting faceplate assembly, which simplifies installation and field-maintenance tasks such as replacing circuit breakers, receptacles or meter current transformers
- Photocell-controlled LED light fixture with fuse protection
- 140-Amp rated copper 3/8" stud-lug single phase 125/250V terminal block
- Polycarbonate weatherproof covers
